First Time Since Revolution  
Began Matters Assume  
Definite Form.

Troops Are Moved Along  
the United States Side of  
the Rio Grande, and  
Everything is Reported  
Tranquil in Mexico—A  
Party of Two Hundred in  
Camp Under Surveillance.

By Associated Press.  
Laredo, Texas, Nov. 23.—For the first time since the revolutionary movement began the Mexican matters have assumed a definite form. Troops were moved today along the United States side of the Rio Grande. In Mexico everything is officially reported tranquil. Last night it was reported that a body of 200 men were encamped above Miners, Texas, who are under surveillance. Official reports say that the party has dwindled. It is stated on reliable authority that the government of Mexico has a cordon of six thousand men patrolling the border. American troops are patrolling the United States border and are working with the local officials.

### REBELS SEIZE ARMS AND AMMUNITION AT TORREO

El Paso, Texas, Nov. 23.—It is reported that Torreón is in the hands of the revolutionists. That rebels have seized the arms and ammunition of the inhabitants and where objections were made they told owners to apply at headquarters for the rebels and receive pay. An American train conductor arriving here says he counted twenty-one bodies of Mexican soldiers, police and rurales. It is reported that Francisco Madero is captured, but this is discredited. One of the generals of the Mexican army declares that Diaz has the situation well in hand.

### MEXICAN SOLDIERS MAKE RAID ON BIG RANCH

El Paso, Texas, Nov. 23.—Mexican soldiers today raided a big ranch in the hope of catching the rebel leader. He had left, but the soldiers took 250 horses. It is reported that Madero has placed 2,000 horses at Cuernavaca, with which he intends to mount a force of cavalry.

## Promoters of the Juarez Race Track Now on the Anxious Seat

By Associated Press.  
El Paso, Tex., Nov. 23.—Promoters of the Juarez race track are on the anxious seat regarding the prospects of the sport across the river. With the revolution in the surrounding states seemingly gaining ground, fear is expressed that the meeting, which is scheduled to begin tomorrow, will be interfered with. Up to the present time the revolutionists have not menaced Juarez.  
Already there are several hundred horses here and it will prove a great hardship to the horsemen if the meet should be interfered with.  
There is much speculation as to the future relations between the

## SUFFRAGETTES HELD FOR TRIAL

ONE HUNDRED AND FIFTY, WHO PARTICIPATED IN THE RIOTS OF TUESDAY, ARE ARRAIGNED.

By Associated Press.  
London, Nov. 23.—One hundred and fifty-six women, taking part in yesterday's suffragette riots, were arraigned in the Bow street court today. At the direction of Home Secretary Churchill those charged merely with obstruction were released. Others charged with willful assault and malicious mischief were returned to prison.  
Most of the prisoners came with a change of clothes, hopeful of the glory of martyrdom in jail. Some brought their knitting and plied their needles during the court proceedings. Among those held for punishment is the daughter of Lord Abinger.

### TWO FOUND GUILTY OF MURDER IN NEW ORLEANS

By Associated Press.  
New Orleans, Nov. 23.—A verdict of guilty in the first degree was returned tonight in the cases of Eugene Besancon and Francois Rodin, convicted of the murder of F. M. Radelet, a watchmaker, whose body, dismembered, was found in sacks in the canal last October. The jury was out five minutes.

TIM HURST ILL.  
New York, Nov. 23.—Tim Hurst, the well-known umpire, is seriously ill here with blood poisoning, which developed from a sharp blow by a foul tip, which struck him on the ankle several weeks ago. The physicians expect Hurst to recover.

Mexican government and the track promoters. The Mexican government up to this time has looked with favor on the enterprise and the concession has many years to run.  
Moreover, should the revolutionists come out victorious, it is hard to tell what would become of the venture. Hundreds of thousands of dollars have already been invested in the plant. There is no question but there is a strong feeling against Americans on the other side of the Rio Grande, and should it be possible to hold the meeting there at all, the patronage will have to come entirely from this side of the line.

## CRIPPEN PAYS THE PENALTY OF AWFUL CRIME

Presented a Pitiable Appearance as He Was Led to the Scaffold.

Was Given a Drop of Seven Feet a Few Moments Before the Stroke of 9 and Death Was Instantaneous. Made No Statement Before the Execution and All But Collapsed as the End Nearer.

By Associated Press.  
London, Nov. 23.—Dr. Hawley H. Crippen today paid the penalty for the murder of his wife, Belle Elmore, the actress, within a few minutes of the stroke of 9, the morning hour fixed for the execution.  
The hanging was in Pentonville prison, where the prisoner had been confined since his return to this country following his arrest in Canada.  
The condemned man, who throughout his trial and even until Home Secretary Churchill had refused a petition for his reprieve, had maintained an imperturbable calmness, presented a pitiable appearance as he was literally led throughout the short corridor from his cell to the scaffold.  
The mental anguish had been too great to be covered up by outward bravado and it was a broken man the warden was obliged to assist up the steps to the drop, upon which, once reached, the shrinking figure all but collapsed.

HAGGARD AND WORN.  
The first report that Crippen had met his fate calmly was contradicted by persons who were present in the prison during the man's last hour. The doomed man passed a restless night and appeared haggard and worn when awakened from a dreamy slumber. He seemed to lose all fortitude as the end approached. A breakfast was brought to him, but he left it untouched.  
His face was colorless as he was escorted bareheaded to the gallows. The gruesome work was soon begun. The black cap was quickly drawn over the face, the noose adjusted and the bolt drawn.

Dr. Crippen, who weighed 140 pounds, was given a drop of seven feet. Death was instantaneous. From the time his reprieve was refused, the physician's condition had been one of agonized mental prostration. He would see only Clara Ethel Leneve, love for whom, the crown asserted, was the compelling motive in the murder of his wife. Solicitor Newton, who had made a game fight for his client, and Father Carey, to whose ministrations he paid respectful attention.  
The final interview yesterday with Miss Leneve was most painful, and, already in the shadow of death, the convicted murderer made no effort to suppress his emotions, parting with the girl. During the remainder of the day he was in a state of complete nervous collapse, retiring to his bed utterly despondent.

NO CONFESSION MADE.  
Now that Dr. Crippen's lips are forever sealed, the usual post-mortem rumors of an eleventh hour confession are afraid. These should be read in the knowledge that on Sunday (Continued on Page Nine)

J. C. BUSH, OF MOBILE, LEAVES THIS AMOUNT, WHICH IS RECEIVED BY THE ALABAMA MISSION BOARD.

By Associated Press.

Bush, of Mobile, who left \$80,000 to various denominational institutions, was received Tuesday by the Alabama Baptist Mission Board. ## A DANGEROUS REEF IS FOUND IN CARIBBEAN

Obstruction About An Acre in Extent Submerged Only Three or Four Feet.

Discovery Was Made by Captain G. Alexson, of the Schooner Doris on His Recent Trip From Pensacola to Belize—Charts Show This Part of the Caribbean to Be Perfectly Clear and Navigable.

A very dangerous reef, not laid out in any of the charts, has been discovered in the Caribbean sea. The discovery was made by the Pensacola mariner, Captain G. Alexson, master of the schooner "Doris", who left this port with his vessel October 19.  
The reef appeared to Captain Alexson all of his crew to be about one acre in extent and to be submerged about three or four feet under the water. When the reef was discovered at a distance, lumber and wreckage was breaking up on the reef and the mariner from the Deep Water City and his men supposed it to be a wrecked vessel.  
The charts show that this part of the Caribbean sea to be entirely clear and therefore it is supposed that this must be a reef of very recent formation and probably is composed of coral and has been caused by a volcanic upheaval.

It is almost directly in the pathway of vessels bound northwards into the Gulf of Mexico or southwards to Panama or Jamaica and is therefore a very dangerous obstruction.  
As so many ships pass directly in sight of this obstruction, it is clear that it is of a very late origin.  
The news of this highly important discovery was made known in a communication of Captain Alexson to the United States navy department and the first port at which he stopped after he had made the important discovery.

The letter of Captain Alexson to the Journal follows:  
"On our recent passage down here from Pensacola, where we sailed on (Continued on Third Page)

## GREEK IS SHOT BY NEGRO BOY AND MAY DIE

George Hemmecal, Victim of Negro and is at the Point of Death.

Negro Walked Into Store of Greek at Petterson Station and While Storekeeper Was Serving Him, Drew a Revolver and Commenced Firing—Negro Made His Escape and has Not Been Captured.

In the humble home of George and Crys Hemmecal, Greek brothers, at Petterson station, in the western outskirts of the city, the former lies at the point of death with a pistol wound below his heart on the left side and a flesh wound over his left eye, the victim of an unknown negro. Chief of Police Frank Sanders and Sheriff Van Pelt's force, working in conjunction, are searching for a negro youth who is wanted for burglary and who is believed to be the perpetrator of last night's crime. Their efforts so far have failed.

The shooting occurred at about 8 o'clock last night and was apparently without cause. The wounded Greek was in his store, which adjoins the humble apartments of the brother, in the act of solving the negro youth, when he was attacked.

The negro was unknown to the Greek and he could furnish no coherent description of him. He entered the store and asked for sardines, according to the wounded man. He was served and then asked for a nickel's worth of cheese and while the Greek was in the act of cutting a slice of cheese, without warning, the negro drew a revolver and fired three shots at him. One bullet entered his side, directly below the left nipple, while the second shot struck a glance on the left shoulder, and the third missed entirely. The bullet entering the side lodged in the back and can be felt beneath the skin.

Called for help.  
The Greek staggered and called for help, while the negro fled through the front door and turning toward the city passed out of sight. There were no eye-witnesses to the tragedy, as the sole occupants of the store at the time were the Greek and the negro. From the meagre description furnished by the Greek, the negro is the same one who has been seen prowling about the neighborhood of the scene of last night's crime for several days and is said to have been dropped here by the 101 Wild West show, several days ago. His description also tallies with that of a negro who entered the home of F. E. Bayless, corner Garden and 11th streets, a few nights ago and stole two revolvers.

With these clues the police and Deputy Sheriff Johnson are attempting to run down the negro and effect his capture.  
Following last night's shooting police headquarters were notified and Chief Sanders and Officer Roach made a hurried run to the scene in the chief's buggy. Captain Wilde and Officer Frank also responded as did Deputy Johnson.

A physician was summoned and upon his arrival an examination of the wounded man was made.  
The Greek's condition was pronounced as critical, but with a probability of recovery.

## HOW TO GET THE BEST RESULTS FOR MONEY

## STUBBS IS HARD ON RAILROADS

TRANS-MISSISSIPPI COMMERCIAL CONGRESS ENACTS RESOLUTION ASKING CONGRESS TO PROVIDE FOR VALUATION OF RAILROADS IN DETAIL.

By Associated Press.  
San Antonio, Texas, Nov. 23.—The railroads and trusts were given some sharp rapings this afternoon by Governor Stubbs, of Kansas, when his resolutions were unanimously adopted by the Trans-Mississippi Commercial Congress. One set urges the national congress to enact legislation providing for the valuation of railroads in detail that the Interstate Commerce Commission may act promptly and intelligently and the public be required to pay only what is reasonable on the investment of railroad property for public service. Another resolution calls for an amendment to the Sherman anti-trust law making the provisions mandatory and providing for imprisonment for violations.

## Memory of Gen. Jas. Oglethorpe is Fittingly Honored in Savannah

By Associated Press.  
Savannah, Ga., Nov. 23.—The memory of General James Edward Oglethorpe, the founder of the colony of Georgia, was fittingly honored here today by the unveiling of a statue erected by the state of Georgia, the city of Savannah, the sons of the revolution and through private subscriptions. The monument, which cost \$40,000, stands in Chippewa square, on Bull street, the most prominent thoroughfare in Savannah. Its erection gives to Bull street a monument in every one of the squares provided as a part of Savannah when Oglethorpe himself laid out the plan of the city in the seventeenth century.  
The unveiling was an interstate and international event, being participated in by not only the governor of

Quarles Will Talk to Member of the Chamber of Commerce

Will Tell Them of Methods and Results Achieved at Other Places—Meeting is Not to be a Money Raiser, But a Study of the Conditions and Methods Here in the Light of Experience Elsewhere.

Taking advantage of the visit to Pensacola of a man who is a recognized expert in commercial organization methods, the Chamber of Commerce has arranged for a special meeting tomorrow night at the San Carlos auditorium, when members and ex-members of the Chamber and the business men generally will be given an opportunity to hear Mr. Edwin L. Quarles discuss the relation between local conditions and the Chamber of Commerce and between local organizations and the great co-operative publicity movement known as the Southern Commercial Congress.

MAN WITH A RECORD.  
Mr. Quarles, before becoming secretary, and one of the field agents, of the Southern Commercial Congress, had made a record, as secretary of the Petersburg, Va., Chamber of Commerce, that made his name known outside of the south. Among the cities which have recently asked him to visit them and advise their local organizations as to ways and means and methods is the city of Rochester, N. Y.

INTEREST IN PENSACOLA.  
Through meeting members of the local Chamber of Commerce at conventions, Mr. Quarles took some special interest in Pensacola before coming here. While here, both during and since the waterway convention, he has made some study of general and special local conditions as affecting the life and efficiency of the Chamber of Commerce. His talk therefore should be of pronounced value in pointing out to the membership of the Chamber how it may be made a still more effective instrument of public welfare.

STUDENT OF METHODS.  
Mr. Quarles's success as secretary of the Petersburg Chamber of Commerce was due in great measure to his study of methods employed in other cities under various conditions and his travels for the Southern Com-

## DREXEL MAKES A NEW RECORD

ASCENDS TO AN ALTITUDE OF 9,970 FEET AT PHILADELPHIA—COULD NOT BE SEEN BY THE EYE.

By Associated Press.  
Philadelphia, Nov. 23.—Trying for an altitude record, J. Armstrong Drexel this afternoon mounted to a height of 9,970 feet, according to the barograph. This tops Johnstone's record, which was 9,714 feet. The aviator was up an hour and a half and out of sight. He landed fourteen miles from the city limits.

Drexel declared the air was so rare that he could not "jump" his aeroplane a bit higher. The ink in the needle of the barograph ran 9,970 feet and this is accepted as a new world record. The instrument is the same as the one carried by Johnstone, and was brought to this city under sealed orders to make the record official.

Georgia and the governor of Alabama, but the representatives of the English government. There were three addresses heard this morning following the invocation by Rt. Rev. F. F. Reese, bishop of Georgia. One was from Hon. J. Randolph Anderson, of Savannah, chairman of the Oglethorpe monument commission, authorized by the Georgia legislature; another by Hon. A. Mitchell Innes, acting ambassador from the court of St. James, and the third by Hon. Walter G. Charlton, judge of the superior court of Chatham county. At the conclusion of his address, the American and English flags in which the figure was draped, were drawn aside by Governor Joseph M. Brann of Georgia, and Mrs. J. J. Wilder, state president of the Colonial Dames.
